

## A Summary of the World

*If we could shrink the Earth's population  
to a village of precisely 100 people,  
with all existing human ratios remaining  
the same, it would look like this:*

There would be 57 Asians,  
21 Europeans,  
14 from the Western Hemisphere (North & South),  
and 8 Africans.

51 would be female,  
49 would be male.

70 would be non-white,  
30 white.

70 would be non-Christian,  
30 Christian.

50% of the entire world's wealth  
would be in the hands of only 6 people  
and all 6 would be citizens  
of the United States.

80 would live in  
substandard housing.

70 would be unable to read.

50 would suffer from malnutrition.

1 would be near death - 1 would be near birth.

1 would have a college education.

No one would own a computer.
