

FEAR NOT

Fear Not, my little one
Fear Not, I have redeemed you
I've called you by your name
I have formed you with my own hands
In your mothers womb
Come lay your cheek upon my breast
And feel the beating of my heart
It is overflowing with love for you
Like a river swollen from the summer rain
You are precious in my eyes
You are honored and I love you
Come and rest in my arms
Feel my healing love surround you
When you walk through the storm, I will go
with you
When you walk through the fire, you shall
not be harmed
For I am the Lord your God, The Holy One,
Your Savior
And you are precious in my eyes
You are honored and I love you
Come and rest in my arms
Feel my healing love surround you
Fear Not, Fear Not
