

Media Memory

TOPIC: *Media*

SCRIPTURE: *2 John 1:9-11*

SUPPLIES: *none*

Have students sit in a circle. Explain that they're going to play a memory game based on the media. One person will name a favorite television show, movie, or character played on television or in a movie. Then that person will point to someone else, who must name a character, TV show, or movie that begins with the last letter of the character, TV show, or movie just named. For example, someone might say, "Oprah Winfrey." He or she would then point to another person, who might say, "Yentl."

Continue playing until someone gets stumped, then begin again if you like.

DISCUSSION

- How much impact does the media have on our lives? How can you tell?
- What's the best way to evaluate the images and themes we see in the media?
- What makes some media images so damaging?
- How do you think God feels about what we view on television and at the movies?
