

A NEW YEAR'S DISCUSSION- STARTER

Here's a great discussion-starter you can use at a New Year's Eve gathering or during your first regular meeting after January 1st. Draw an old-fashioned clock face on a whiteboard or on a flipchart. Draw in the clock hands with the exact time. Ask kids if they can tell you what they were doing at this exact moment last year. Then ask them what they'd like to be doing at this exact moment next year. What about 10 years from now? Use this discussion to launch an exploration about free will versus destiny, dreams and ambitions, or how God brings growth in our lives.
