

KALEIDOSCOPE

by Sleepy Rebels

The world goes on and on,
Twisting kaleidoscope,
Of things you never dreamed you'd be there seeing.

Hold your dreams, then fly,
No need for looking back,
You've got it now don't ever let go.

Cause once you know you know
Your heart will always be,
The thing that life has given here to you.
So here's to you.

Connecting all the times,
You follow and you find,
That love is waiting everywhere for you.
The people in your life,
Will never leave your side.
We're all connected, everyone, its true,
So here's to you.

Fly, fly, fly, fly away.
Here's to you.

The world goes on and on,
Twisting kaleidoscope,
Of things you never dreamed you'd be there seeing,

Hold your dreams, then fly,
No need for looking back,
You've got it now don't ever let it go.

Cause once you know you know,
Your heart will always be,
The thing that life has given here to you,
So here's to you.
