

What difference would it make in your life if you believed that:

1. Your nationality and race are superior to any and all others.
2. Human beings are basically evil and "out to get you whenever they can."
3. Men are inferior to women.
4. Material wealth is God's blessing for good people and a sign of his favor?
5. It doesn't pay to do good for others. Giving amounts to losing.
6. Anybody over thirty years old is "out of it."
7. Actions are wrong only if you get caught.
