

# UNFAIR MONEY PRACTICE

Hide small amounts of money around a room that can be made totally dark. Announce that you are going to turn the group loose in the dark room to find the money. Before the meeting, however, clue in one or two of the kids and give them a small flashlight that they can use for the money search. Watch what happens when the kids discover that someone has a flashlight. This is excellent as a discussion starter on relationships, selfishness, jealousy, anger, etc.
