

More Career Planning

Directions: Read the list of personality traits in each section below. Trace a blue border around the section that most describes your personality, a red border around the section that somewhat describes your personality, and a green border around the section that least describes your personality.

I am able to fix things that are broken.
I like to work outdoors more than indoors.
I would rather work with objects than ideas.
I tend to dress neatly but not in a way to attract undue attention to myself.
I would rather take a course in mechanics than literature.

I enjoy poetry.
I am interested in music, drama, and the arts,
I like to work on my own on a project so that I can develop my own solutions.
I consider myself a creative writer.
I prefer a course in literature over one in mathematics.

I like to find out about the inner workings of everything from computers to the human body.
I am able to solve complex math problems.
I can see myself discovering solutions to medical or scientific problems.
I prefer a science course over a literature course.
I enjoy doing detailed research projects and reports.
