

# I Wish by Point Of Grace

I wish I didn't feel so helpless  
I wish I didn't act so selfish  
I wish I didn't wring my hands night and day  
My hair was a little bit smoother  
My jeans fit a little bit looser  
And I always knew the right things to say  
And I wish I wouldn't hide what's been going on inside  
And I wish you wouldn't get scared and run away

## **Chorus**

***I wish I was doing better With all the things that matter,  
I guess I got some learning to do  
I wish everyone had someone To hold em and to love em  
The way I'm always gonna love you  
I wish wishes came true***

I wish there was a cure for cancer  
I wish somebody had an answer  
And all God's children, never got hurt  
I wish Eve never bit that apple  
You men never went to battle  
And I didn't get so mad at the world  
I wish I was more like Jesus  
And could pick up all the pieces  
And make a better life for my baby girl

## **chorus**

For everything I am wishing  
I know someone up there is listening  
So, I say my prayers when I go to bed

Oh pray my wishes come true

## **Chorus**
