

## **NEED HOPE**

**My Dear Child,**

**Are you about to give up hope?**

**Never lose hope.**

**When things look the worst, sometimes that's when you are closest to a breakthrough.**

**Try not to put your hope in people and things other than me.**

**Hopelessness is one of the dark sides tools to hurt you and pull you away from me.**

**So refuse to give in to it. As long as you are alive in my heart, and trust me, in the midst of all darkness you will not only survive but grow.**

**Never forget how much I love you.**
