About John

John's journey as a healer began with his own personal experience with illness. After several weeks of feeling ill, John lapsed into a coma for reasons doctors couldn't determine. He was subsequently pronounced dead, but then quickly returned to a comatose state where he remained for four days. Upon awakening, he was paralyzed from the neck down. Two days later, he got out of bed and walked out of the hospital. The doctors said it was a miracle. From that point on, John was blessed with a gift that he wasn't consciously aware of.

John discovered his healing ability, and began his healing practice in earnest, as a result of his own healing experience in 1994 while attending a workshop given by Gerald Epstein, MD. For many years he had been afflicted with allergies so severe that he was dependent upon steroid sprays, antihistamines, two shots every week and numerous vitamins in an attempt to maintain a balance of wellness. Yet despite this intervention, John's health continued to decline. Today, he is completely free of medication and without illness. Since this incident, John has dedicated himself to the pursuit of healing others. He has successfully helped his clients to heal themselves from a broad spectrum of conditions - spanning terminal cancer to depression. Through his God-given gift and his compassion, John has guided many, who were "told there was no hope," back on the road to good health.

About The Healing Process

John Carroll is an intuitive healer, teacher and spiritual counselor who integrates mental imagery with his God-given gift of his hands. He uses the healing power of light combined with integrative mental imagery to give clients (including therapists and other healers) the opportunity to find their healing possibility with God and higher self as their means of healing.

When working with clients, John first explains the dynamics of how we function emotionally and spiritually. Through analogy, clients come to an understanding of how illness begins and how to become well again. John then conducts an intuitive evaluation of the physical/emotional/spiritual body. In many cases he is successful in performing "psychic surgery" with Divine intervention. After the healing process, imagery is given to provide clients with their own tools to continue the healing process and reunify the emotional, physical, and spiritual self.

To facilitate self-awareness and understanding of our own behaviors, John also incorporates the use of morphology, the ancient art of face reading. This reveals the inner qualities of personality and temperament. It also reveals the healthiest diet, most vulnerable diseases, and the most suitable type of work for each facial type.

"I had been having major problems with my stomach. I was also diagnosed with high blood pressure and high cholesterol. The doctors were unable to answer any of my questions. John worked with me. I immediately felt a surge of energy throughout my body. After my session with John I was a new person. My blood pressure and cholesterol are normal. I continue to work with John over the phone. John guides me and supports my efforts."

"I had been suffering Chronic Fatigue Syndrome and malaise for over five years. I had been treated by a number of physicians. Unrelated to this problem with my health, I had an inherited hearing loss. I had been wearing hearing aids for 10 years. John worked on me for one session and I spontaneously healed...I no longer wear hearing aids."

Robert Davis, CAC, NCAC II

"I was diagnosed with RSD (Reflex Sympathetic Dystrophy). A very rare disease. There is no known cure. I could not move my fingers, wrist, arm, or shoulder and I was in excruciating pain. Within a month of the imagery work with John, my shoulder became unfrozen. Two months later, my arm and wrist had much more mobility. The pain level became manageable. Thanks to John I really have a handle on the RSD. He is physically, spiritually and emotionally helpful to those who work with him."

Jill

"I was diagnosed with Chronic Lymphatic Leukemia...The night of my healing had a profound effect on me. It was at that time I believed it left my body. I visited my hematologist, and she informed me that my blood count was normal. She called it spontaneous remission. I call it a gift I received from God through John"

Breeda

"I was given 2 months to live after being diagnosed with stomach, colon, prostate cancer, and was unable to move due to a tumor in my back and a back injury. After my first session I was able to move freely. After 2 months working with John I am cancer free and able to touch my toes with a little pain and NO pain medication."

Lee

"A blow to the head caused problems with speech and finding my balance. John corrected the problem within moments. I was walking and talking normally. Not only is he effective in person but he corrected the severe pain from a whiplash on the phone"

Lydia S. Craignyle, Ph.D.

"John Carroll is a most capable, worthy and excellent healer of high integrity, compassion and love.

"I came with bone spurs and herniated disc. Surgery was recommended, possible paralysis would be the result. I didn't believe in this work - my wife convinces me to go. My bone spurs are gone, as are the herniated discs!
