

# FIGHTING FIRES

Reflect on these questions by yourself or with your group.

- Q:** Have you ever tried to help someone deal with a sexual issue or problem? How did it go?
- If you knew then what you know now, what would you have done differently?

- Q:** Has anyone ever tried to help you deal with a sexual issue? What did they do well?
- What do you wish they had done differently?

- Q:** Think about the people closest to you—parents, siblings, cousins, teachers, friends, neighbors, and pastors. What sexual issues do you think they could be going through now? What makes you think that?
- Do you think you have resources to help them (without harming you)?
  - How do you think you might pray for them? What would remind you to pray for them?
