

WHEN IS IT SEX

Reflect on these questions by yourself or with your group.

Q: When do you believe it's sex? Identify the behavior you think is the threshold of sex between two people.

- Hugging
- Hand-holding
- Massaging
- Kissing
- I'll show you mine if you'll show me yours
- Caressing
- Mutual masturbation
- Oral sex
- Sexual intercourse

• How did you reach that conclusion?

Q: Have you had a disagreement about that with anyone you were involved with?

- If so, what happened?
- How did you feel?
- How did you work it out?
- How do you feel toward that person now?

Q: Do you think there's a way to find out what a person's view of sex is without having a wrestling match?

- How could a conversation about what sex is be helpful to two people in their dating relationship? Can you think of any harmful effects?
- Do you think you can go out with someone who has a different view of sex without somebody getting hurt? Why?

Q: Do you think it might be helpful if you could compare notes with someone on this?

- What do you think you have to lose and gain by doing that?
