

WHAT'S YOUR OPINION?

Invite group members to respond freely to these statements about modern media:

- Movies, music videos, video games and television encourage disrespect, violence and immorality in our culture.
- Movies, music videos, video games and television simply reflect the truth about our culture.
- People who don't like today's media simply should not watch and listen.
- People learn about life from today's media.
- Parents should be able to control what their teenagers watch and listen to.
- I've learned a lot about good and evil, right and wrong from TV, movies and magazines.
