

**Directions:**

Listed below are some common and not so common human activities. Each activity expresses one or more of four "drives within us." In the space after each item, indicate which drive, or drives, underlie that particular activity. By way of recall, here are the drives again:

- Drive 1: To exercise greater freedom and control over one's own actions. (Drive toward Autonomy)
- Drive 2: To achieve, create, do something worthwhile with one's talents. (Drive toward Achievement)
- Drive 3: To share ourselves with others in friendship and love. (Drive toward Relationship)
- Drive 4: To search for an underlying meaning in life. (Drive toward Meaning)
