

# IN ONE DAY

Americans throw out 200,000 tons of edible food—about 8 million cubic feet of chow.

Americans give birth to 100 pairs of twins.

Americans give 4,125 gallons of blood, enough to completely drain and refill 2,000 people.

Sixty-eight teenagers are arrested on charges of fraud or embezzlement and 78 children under the age of 16 are arrested for stealing a motor vehicle.

Americans gargle 69,000 gallons of mouthwash. They top that off with a quarter million packs of mints and breath fresheners.

14,000 Americans drop out of, or otherwise give up on, high school.

Americans send 9 million greeting cards, almost half of them for birthdays. That's more than 6 birthday cards apiece—how many did you get on your birthday?

Americans gobble up 75 acres of pizza. Imagine 13 pizzas the size of the Roman Colosseum—that's enough food to cover 60 football fields.

Four thousand children and teenagers take up smoking.

Americans eat 6.5 million gallons of popcorn. Seventy percent of it is eaten at home.

Americans give away \$165 million, or nearly \$2,000 a second.

Americans jog 28 million miles—enough to travel every road in the United States seven times over.

In one day people waste, love, celebrate, kill, and weep.

God has given you this day. How will you spend your day?

In one day thousands of persons commit crimes, heal the sick, and overeat while others starve.

In one day people fall in love, give birth, and die.

Hundreds decide to follow Christ, others choose violence and greed—in one day.
