

CELEBRATION

## DONUT SUNDAY

---

**Here's an easy way to mix up how you celebrate birthdays.**

On the first Sunday of every month, buy donuts and put a candle in each one. Then have every teenager with a birthday in that month come up to the front where you learn more about their stories—birthday memories and random, funny questions. Light the candles and have the group sing Happy Birthday to them. Collect the candles afterward to use again next month.
