

# Capture the Flag

Play this in a large, dark room with objects to hide behind, or outdoors in a wooded area. Divide into two teams giving each a flag to hide in their territory or have a designated place for the flags. Each team can send as many people to get the flag as they wish but each team will be given squirt guns, marshmallows or whatever harmless ammunition you choose, to shoot or throw in order to disqualify whoever they hit. They may also be captured and put in jail. The wilder the better. Be creative, make your own rules and have fun.
