

# FLASH TAG

---

**You'll need a very dark room and a digital camera with a flash on it for this tag game.**

Turn out the lights, and have everyone who isn't *It* spread out. Once the game starts everyone has to freeze where they are. The person who is *It* takes the camera and starts making his or her way around the room, occasionally taking a picture. Then *It* looks at the picture to see if anyone is captured by the flash. If so, *It* calls out the name, and that person is *It*.
