

Hungarian Baseball

Get one soft soccer ball or volleyball.

This game is played like "kick baseball" except with these two changes: (1) When the ball is kicked by the first "batter," the entire team that is "up to bat" forms a line (with hands around each other's waist) and runs around the pitcher and back to home plate, and (2) the team that is "in the field" must retrieve the ball and line up behind the pitcher and pass the ball back to the pitcher under their legs. The team that completes the process first either scores or makes an "out."

Three "outs" retires the side. Foul balls don't count.
