

N NOVEL QUEST

Here's an easy game with lots of variations kids will go crazy over.

Meet in a large room. Form teams of four to six, and have each team find a separate place to stand in the room. Use masking tape to place one X on the floor in the front of the room for every two teams. For example, if you have four teams, place two X's. If you have an odd number of teams, round up to the next even number. For example, if you have five teams, place three X's. Evenly space the X's along the floor so kids won't trip over one another when they run up to stand on an X. Prepare point tokens, such as slips of paper, beans or play money.

Say: **This contest is a variation of a scavenger hunt. I'll call out things for you to find. When you find the item I've called out,**
