

POSTCARD PASTE-UP

Use this fun crowdbreaker before a meeting about God's creation.

Collect about 40 picture postcards of scenery. Cut each in half. Place a card table with one-half of each postcard, a stapler and a few pencils in the center of the room. Place an empty wastebasket beside the table.

Hide the other halves of the postcards all over the room and anywhere else you want your kids to go.

On "go," have kids race to find the hidden postcard halves. When a group member finds a hidden half, he or she must run back to the table, staple it to the other half, sign it and "mail" it in the wastebasket.

When all the cards are mailed, count the signatures to discover who found the most. Give that person a prize of postage stamps.
