

TWO TRUTHS AND A LIE

In this game, kids try to fool their friends.

You'll need tape or pins, and for each person you'll need a 3x5 card and a marker. Give each kid a 3x5 card and a marker. Say: **Write your name at the top of your card. Then write two true bits of information about yourself and one sneaky, convincing lie. Tape or pin the card to your shirt.**

Ask kids to mingle. Say: **Your goal is to figure out which piece of information on each person's name tag is a lie. Each time you're fooled, you must initial that person's name tag. At the end of five minutes, the person with the most initials on his or her name tag wins.**
