

ZANY OLYMPICS

Athletic and not-so-athletic kids score big in these Zany Olympics. Have fun with these four crazy events.

- **Miniature Golf**—Lay out a course of three golf “holes” in the churchyard with obstacles such as bricks, boxes, trees and old tires between the tees and holes. Paper cups laid on their sides and nailed to the ground are the holes. Have kids use brooms or mop handles for putters, and Ping-Pong balls for golf balls. The person with the lowest number of strokes for three holes wins.

- **Water shot put**—Fill a one-gallon plastic milk container three-quarters full of water and tighten the lid. Have kids throw the container like a shot put. Allow each person two throws. Measure the distance of each throw with a tape measure. Combine the two distances each person throws the container. The person who throws it the farthest combined distance wins.

- **Javelin throw**—Tape three drinking straws together to make a “javelin.” Give kids each two throws. Figure the combined distance each person throws the javelin in two throws. The person who throws the javelin the farthest combined distance wins.
