

LICENSE-PLATE NAME TAGS

Give your kids blank license plates (paper or cardboard in the shape of a car's plates) and marking pens. Have them design creative, personalized license plates (like those you see on the road: KLU-LESS, N LUV, SWEET 16, etc.). Encourage a creative combination of numbers and letters. Limit

only the number of digits or letters that can be used on the plate.

Allow your teenagers to share the significance of their plates' messages and give prizes for the most original, humorous, creative, etc. They can be worn as name tags for the rest of the event.
