

Magazine Collage

Give the group the following instructions: Individually, leaf through a pictorial magazine or daily newspaper and tear out some pictures, words, slogans, want ads, etc. that reveal who you are: (1) your interests, (2) your self-image—how you see yourself, (3) your special abilities, and (4) your outlook on life. After 10 minutes, collect your “tear-outs” and paste them on a sheet of newsprint, poster paper or paper sack. If you use the paper sack, paste on the outside of the sack any tear-outs that symbolize how you appear on the outside. Put inside of the paper sack any symbols that reveal who you are on the inside. Then, get together with one or two others and explain your “self-portrait.”

Materials required:

- pictorial magazine or newspaper for everyone
- newsprint sheet, poster paper or paper sack for everyone
- rubber cement
- SAMPLE collage to demonstrate how it is done
