

## HELPFUL HINT

## prayer photo calendar

Each month I produce a calendar with a pictures and names of teenagers—one for each day of the month. On program days, instead of showing a teenager, I list the name of the person who will be speaking along with the topic (if we know it).

I also add an overall prayer focus for each month.

I send these to all of our ministry volunteers and leaders—it gives them a regular dose of information that helps them connect with our kids. I also send it to those who have committed to praying for the ministry, so they can pray for kids by name.
