

# MARCH MADNESS

---

During the Month of March, we encourage teenagers to do more than just watch the college basketball tournament.

Our MADness stands for how we strive to Make A Difference in the community. During our weekly meetings we schedule service projects, including helping with the children's ministry program, visiting a local nursing home, or helping shoppers to their cars at the grocery store. We also challenge them to make a difference in their everyday lives and share their stories at our next meeting.
