

LACK OF EMPATHY

You fail to consider hurt and/or injury to others

You only consider it injury if there is physical harm

You do not understand the chain-of-injuries or ripple effect (domino effect) of your irresponsible and/or criminal behavior

You minimize harm and hurt done by your behavior (words and actions)

You do not stop to think about what other people think, feel, and expect

You fail to consider another's position and demand your ideas be accepted

You are only concerned about yourself

You hear only what you want to hear and not what responsible others may have to offer

You lack consideration for others and disregard customs, laws, and rules

You fail to consider the needs of others

You fail to understand how people function in their roles; what is expected of them
