outreach

window witness

Show your group the power of blessing others through this cleansing activity.

Have your entire group show up at a convenience store or gas station (make sure you get the store's permission first) and offer to wash the windows of folks who show up to fill up. Here's the key: *Don't take any money!* Even if it's offered, kindly decline. And unless someone directly asks where you're from, don't even mention your church. The idea here is to just do someone a kindness, expecting nothing in return.

Return to your church and talk about the meaning of agape love—love that has no expectation of repayment or conditions—the kind of love Jesus modeled. Discuss how it felt to do something for others without expecting or getting anything back. Ask how it would've felt if they'd put up a Donations Appreciated sign and then had someone "stiff them." Close by challenging your young people to find moments every day when they can live out agape love.
