

STUDY THIS CHART CAREFULLY! . . .

The practice of CHIROPRACTIC is as broad as the nerve system, often called "THE MASTER SYSTEM OF THE HUMAN BODY." This MASTER SYSTEM regulates and controls all other systems of the body, including the circulatory system, the digestive system, the respiratory system, the muscular system, the reproductive system, the glandular system, lymphatic system and eliminative system (excretory system), etc.

Take time to study this famous "Health Chart of Chiropractic" and you can under-

stand how important YOUR SPINE is in the maintenance of your normal, "natural" good health. A misaligned spinal vertebrae can cause disease in ANY PART OF THE BODY. Notice how the nerves go to and energize every organ tissue, and living cell of your body—arms, legs, abdomen, head; etc.

Every health problem has a cause and the cause must be found and corrected before you can get well. Telephone now and make an appointment with your Doctor of Chiropractic for a chiropractic spine and nerve test.

STUDY THIS CHART CAREFULLY!
See how the nerves go through the spinal openings? Nerve pressure at one end or more of these points may be the underlining CAUSE OF YOUR CONDITION!

YOUR LIFELINE CHART

1. A slight "pinching" of nerves at this point can cause headaches, some eye disease, ear problems, insomnia, abnormal blood pressure, colds, hay fever, sinus trouble, nervousness, wry of stiff neck, some types of arthritis, allergies, glandular trouble, etc.
2. A nerve difficulty in this part of the spine can be the cause of so-called throat trouble, neuralgia, pain in the shoulder and arms, goiter, nervous prostration, etc.
3. In this part of the spine, a "pinched" nerve can cause so-called bronchitis, pain between the shoulder blades, rheumatism and neuritis of the arms, shoulder or hands, bursitis, etc.
4. A blocked nerve at this point can cause so-called nervous heart or fast heart, asthma, difficult breathing, bronchial congestion, etc.
5. Stomach and liver trouble, pleurisy, and a score of other troubles can be caused by pressure in this part of the spine.
6. Nerve pressure at this point can cause gall bladder problems, dyspepsia or gas of upper bowels, shingles, hiccups, etc.
7. Certain kidney problems or disease, eruptions and other skin diseases can be caused by nerves being pinched in the spinal openings at this point.
8. Chiropractic adjustments here often help such troubles as so-called lumbago, constipation, colitis, etc.
9. Nerve pressure at this point can cause bladder frequency, prostate problems, lower bowel and abdominal pains.
10. A slight slippage of one or both of the hip bones or the sacrum may cause so-called sciatica, leg or knee pains, and many other leg problems.
