

*Variety is the spice of life,
That gives it all its flavor.*

--William Cowper

We are each a unique experiment. *creation*

In our physical, mental, and emotional makeup, we are each different from everyone else in the world. We have our own way of walking, talking, running, writing, and throwing a ball. We vary in our ability to use language, add and subtract, spell and memorize. No one else sees, hears, smells, tastes, and feels pain in exactly our way. We differ in our energy level, sleep pattern, body temperature, heartbeat, interests, and talents.

In virtually every area of human growth, each of us is truly an individual.
