# FALSE VIEW OF SELF
# (FALSE PRIDE)

You think and believe you are so different from everyone else that no one can understand you

You fail to see how you are like others

You fail to realize and admit your limitations

You fail to be self-critical but are quick to criticize others

You think you are a "cut" above everyone else

Getting your way is the most important thing to you

You do not use fear as a guide to responsible living and do not understand that fear can be positive or negative

You believe yourself to be good regardless of how many people you hurt or harm

You think you need no help and can handle any problem

You define being a man as being tough or having an image rather than as being responsible and accountable

You think if you want something or someone you are entitled, it or they are yours

You believe the world owes you

You refuse to admit when you are wrong or have done wrong

You see people as objects or property to meet your needs or wants

You must be # 1 or you are nothing

You feel you deserve special treatment because of who you are rather than because of what you do

You fear failure and fail to learn from failure

You are always ready to be critical of others but fail to be critical of yourself

You feel like zero or nothing when bored or in the dumps

You take and take but give little or nothing in return

You fear dependence when we are all dependent at times
