

WHAT KIND OF BULB?

Use common light bulbs to generate biblical discussion on “what kind of light you are.”

Flashlight Bulb: Small and shines only in certain areas—it’s for emergencies.

- Your light shines only in certain situations and only in a few select areas of your life.

Night-Light Bulb: Shines only in times of fear and insecurity.

- Your light is like a security blanket of faith. You shine it only in tough times or when you have fear in your life.

Christmas Light Bulb: Shines only on holidays or special occasions.

- Your faith is like your church attendance—it shines only at Christmas, Easter, and Mother’s Day or Father’s Day

Party Light Bulb: Shines only at fun events or parties.

- Your light shines only when it’s time for the next big youth event or trip. If it’s a fun time, then you’ll turn on your light.

Regular Light Bulb: Shines every day, all day, and in every direction. It fits into the lamp, connects to the power, and shines bright.

- You shine your light in an everyday way—there’s no time or area of your life when you’re not working to let it shine. Your light is embedded in the most prominent areas of your life, and gives light to everything and everybody.
