

ABC CHRISTIANITY

Your kids have doubtlessly noticed that there are different types of Christians. Here's a small-group activity that allows students to creatively examine the types—and in the process maybe take a hard look at what kind they are.

Divide into groups and assign a letter of the alphabet to each group. Using their assigned letter, the groups then come up with as many words as they can that describe different types of Christians or Christianity. To avoid irrelevant words, require groups to write a short explanation or description of vague words. Some examples are given on this page. ~

boring
bashful
billboard
(showy, like to attract attention)
baby

faithful
frontier
(bold leaders away from church "frontier area")
financial
(try to buy their Christianity)
future
(party now, live the Christian life later)

dull
dedicated
dependent
(depend on others for their Christianity)
deceiving
